

## FAQs

### WHAT IS AGELOC® YOUTH?

ageLOC Youth is an anti-aging supplement that helps revitalize our aging defense mechanisms. Designed using highly innovative gene expression science, ageLOC Youth promotes the years you can enjoy life being more active, energetic, and healthy.\*

### WHAT ARE AGING DEFENSE MECHANISMS?

Aging defense mechanisms are the body's way of fighting off and maintaining resistance to aging aggressors by promoting the healthy regulation of damage and repair processes. As we age, changes in gene expression cause our bodies' aging defense mechanisms to decline in function, performance, and ability. ageLOC Youth maintains and supports the activity by positively modulating gene expression, helping us to live youthfully.\*

### HOW DO AGING DEFENSE MECHANISMS AFFECT MY HEALTH?

ageLOC Youth influences multiple aging defense mechanisms to provide broad-spectrum health benefits and to promote healthy: systemic balance, cellular response, DNA integrity, systemic cytokine responses, antioxidant protection, brain, eyes, heart, skin, immune function, bones, joints, lipid metabolism, and physical performance.\*

### WHO SHOULD TAKE AGELOC YOUTH?

Men and women 18 and over who want to maintain their youth and live a healthy, more youthful life.

### WHAT MAKES AGELOC YOUTH SO UNIQUE?

- Our most advanced anti-aging supplement ever, ageLOC Youth targets our innate ability to resist aging at its source.\*
- Contains a unique blend of nutrients that is not readily available from even a healthy diet.
- Built on more than three decades of scientific knowledge.
- Created with our scientific understanding of the expression of key groups of genes related to the aging process, as well as antioxidant and nutritional science.
- Positively modulates gene expression to support healthy aging defense mechanisms.\*
- Influences multiple aging defense mechanisms to provide broad-spectrum benefits.\*
- It is SCS certified. Measure the antioxidant difference ageLOC Youth is making in your body.

### WHAT IS DIFFERENT ABOUT THE AGELOC YOUTH CAPSULES?

ageLOC Youth takes advantage of a unique capsule technology, called Licap®, that allows delivery of both liquids and solids together in a hard shell capsule. Delivering ageLOC Youth through this technology improves the bioavailability of fat-soluble ingredients, which helps ensure the delivery of anti-aging benefits.

### WHAT IS CONTAINED IN THE AGELOC YOUTH INGREDIENT BLEND THAT IS HARD TO FIND IN A REGULAR DIET?

Our ingredient screening led to the identification of several natural ingredients, many of which are not common in foods consumed on a regular basis, even among individuals who strive to eat a healthy diet. Ingredients such as purple corn extract, alpha lipoic acid, D-limonene,\* CoQ10, citrus bioflavonoids, resveratrol, and vitamin K2. Other ageLOC Youth ingredients, although found in healthy diets, have been included in amounts consumers have a difficult time obtaining from their diet alone. These include astaxanthin, rosemary extract, EPA, DHA, vitamin D, and quercetin.

### HOW IS AGELOC YOUTH DIFFERENT FROM LIFEPAK?

ageLOC Youth and LifePak were designed in different ways, with different science. We designed LifePak with the best nutritional and antioxidant science. We formulated ageLOC Youth using all three anti-aging sciences: our proprietary gene expression science combined with key antioxidant and nutritional elements for our most advanced anti-aging product possible.

\*These statements have not been evaluated by the Food and Drug Administration.  
This product is not intended to diagnose, treat, cure, or prevent any disease.

### **IF I CAN ONLY TAKE ONE PRODUCT, SHOULD I TAKE AGELOC YOUTH OR LIFEPAK?**

For advanced anti-aging effects, you should take ageLOC Youth. The ageLOC Youth formula is based on our most advanced scientific knowledge and understanding.

### **CAN I TAKE AGELOC YOUTH WITH R<sup>2</sup>?**

Yes, you can take ageLOC Youth and ageLOC R<sup>2</sup> together. Gene expression science guided the development of both products, however, we assessed their ingredient blends for distinct benefits. We formulated ageLOC R<sup>2</sup> with benefits targeting cellular energy and cellular purification; whereas we formulated ageLOC Youth to support aging defense mechanisms, which guard against cellular response disruption, strengthen the body's ability to protect and repair DNA, and provide more broad-spectrum nutritional benefits.\*

### **CAN I TAKE AGELOC YOUTH WITH OTHER PHARMANEX PRODUCTS?**

Yes, ageLOC Youth's gene expression science and ability to remind our bodies how to be young complement our many other supplements. ageLOC Youth targets the sources of aging by influencing gene expression that impacts your aging defense mechanisms. It does this with a unique ingredient blend not easily found even in a healthy diet. These unique ingredients and their ability to positively modulate gene expression make ageLOC Youth an excellent core product and a powerful companion to your daily supplement regimen. Please consult a physician if you have questions about your supplementation regimen.\*

### **WHAT IS THE RECOMENDED USAGE FOR AGELOC YOUTH?**

Take 2 capsules twice daily with meals.

### **WILL AGELOC YOUTH INCREASE MY SKIN CAROTENOID SCORE?**

Yes, in our ingredient selection process to identify natural substances that target aging defense mechanisms, we also identified a few ingredients that will positively impact your antioxidant status.

### **HAS NU SKIN CONDUCTED STUDIES ON AGELOC YOUTH?**

There are several ageLOC Youth studies completed or ongoing.

### **WHY IS THE AGELOC YOUTH LAUNCH SO EXCITING?**

ageLOC Youth represents the next wave of the Nu Skin® ageLOC opportunity. The demand for anti-aging products and the ability to live younger longer is growing worldwide. People all around the globe will benefit from looking and feeling healthy.

### **WHEN WILL AGELOC YOUTH BE UNVEILED?**

ageLOC Youth will be introduced at Nu Skin's October 2015 Global Convention. The Limited Time Offering will be on November 12, 2015.
